FOR UDDER HYGIENE AND PROTECTION DURING MILKING

SALUS DIP is an innovative solution designed to ensure hygiene and protection of the udder during milking. By using advanced ingredients, including the SynthAg colloidal silver preservative based on silver ion clusters, Salus DIP provides exceptional antibacterial and antifungal properties, guaranteeing the quality and safety of produced milk.

PRODUCT COMPOSITION

The advanced formula incorporates carefully selected ingredients to effectively protect the teats of dairy cows and ensure maximum hygiene. The components are pure and free from impurities. A food-grade colouring agent gives the product its characteristic yellow tint, while an oxidising agent enhances its antiseptic properties. A synthetic polymer acts as a film-forming, stabilising, and thickening agent, ensuring uniform and long-lasting coverage. A specially chosen humectant maintains optimal moisture levels, boosting overall effectiveness.

INGREDIENTS: Aqua, Glycerin, Polyvinylpyrrolidone, Hydrogen Peroxide, Polyvinyl Alcohol, Colloidal Silver (SynthAg), E110.

APPLICATION FIELDS

Salus DIP is intended for use in livestock and veterinary sectors.

USAGE INSTRUCTIONS

Preparation: Thoroughly clean the udder and disinfect the teats with appropriate products.

Application: Dip the teats into the Salus DIP solution immediately after milking.

Dosage: Use the recommended amount to ensure complete coverage.

Concentration: Ready-to-use solution, no dilution required.

Action: Leave on until the next milking.

Monitoring: Regularly check the treatment's effectiveness.

STORAGE CONDITIONS

Store the product in a cool, dry place, away from heat sources and direct sunlight.

PRECAUTIONS

Avoid contact with eyes. In case of contact, rinse thoroughly with water. Keep out of reach of children. For use on dairy animals only.

ADDITIONAL INFORMATION

The product complies with European safety and quality standards. Individual sensitivity to cosmetic product components is possible. **Not a medicinal product.**

APPEARANCE

Transparent orange gel.
